

NATIONAL INDUSTRIAL AUCTIONS RESULTS SUMMARY

TRANSPORT | CONSTRUCTION | AGRICULTURE | COUNCIL & GOVERNMENT | **NOVEMBER 2023**

November had a solid result again for Manheim Industrial, headlined by a strong increase in sales compared to October, and 5% growth in the number of unique buyers.

The company sold 20% more assets across Australia and New Zealand including light and heavy trucks, trailers, agriculture, earthmoving construction and mining machinery.

We saw commensurate month-on-month increases in bidding activity across the heavy truck (28%), light truck (20%), trailer (31%), and agricultural (6%) sectors.

Expectations for the agricultural sector have softened, with the sector broadly expecting a drop in yields from broadacre farm income due to drier conditions caused by an El Niño cycle.

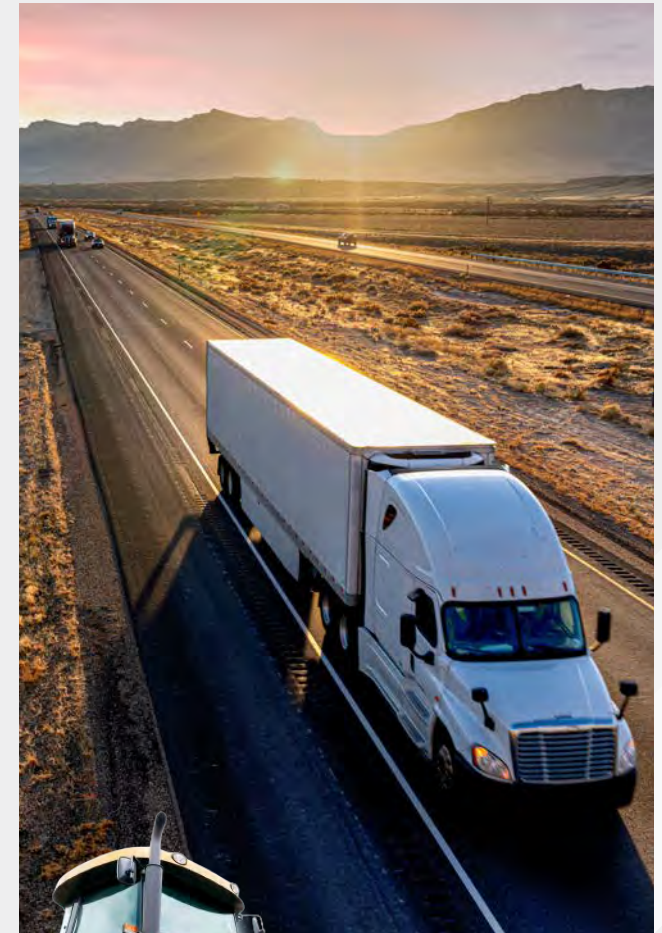

However, rains during November saw the sector show some short-term buoyancy, with increased pageviews and bids on harvesters, balers, seeders, tractors, and mowers.

The civil, construction and mining sector is a mixed bag, with plenty of demand for good quality yellow machines due to ongoing shortages of new pieces, and more clarity in regard to the government's infrastructure pipeline.

However, the unfavorable exchange rate and biosecurity issues make importing equipment a challenge, as it has been all year.

The heavy trucking sector is facing headwinds like fuel charges and driver availability, and the availability of more stock has led to some oversupply and a cooling off - more for the older machines with greater hours and mileage.

More generally, there are signs that buyers are putting their wallets down as we hit the end-of-year point, with clearance rates beginning to cool outside the agriculture sector.

National Transport - Heavy Trucks
